11 446

11 446 H0
Granary

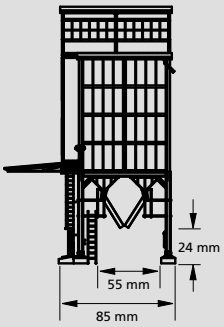

This granary of Olbernhau's Upper Mill in the Erzgebirge (Ore Mountains) was operated until the early 1990s. This attractive building was created from a combination of steel and bricks. A general signage is enclosed.

The trough for unloading bulk goods from the standard gauge self-unloading wagons can be built in open or closed design. The elevator conveyer resembles its original very much.

The loading of trucks, narrow gauge wagons or light railway cars can be displayed. We offer suitable replicas of a bulk good wagons under No. 41 709. Levers, ladders and railings are made of stable cardboard in laser cut technology. For the best results, please follow our tip written in catalogue or at www.auhagen.de.

The overhead clearance can be reduced up to 32 mm by lowering the filling device's movable pipes that may even be cut to size. When using track with built-in trackbed, compensate for the extra height with the base.

Available from 07/2016
RRP 39.90 EUR

120 x 120 x 180 mm

41 709

41 709 H0
Bulk good wagon replica

This large cart is particularly suited for our No. 11 446 Granary. But also peat or crop plants were once transported in it. 1 piece

New Items 2016

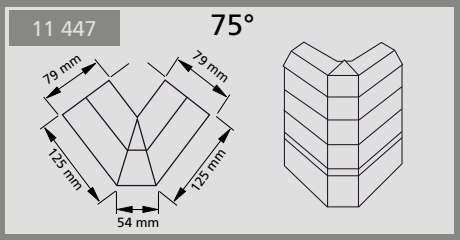

11 447 H0
Schmidt Street 10 corner house

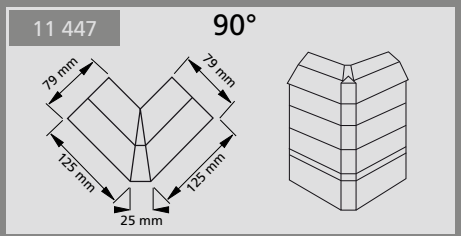

The special feature of this building is that it can be designed at an angle of 75°, 90° and 105°. All parts are enclosed. The railings for the balconies are made of stable cardboard in laser cut technology. Please follow our tip written in catalogue or at www.auhagen.de.

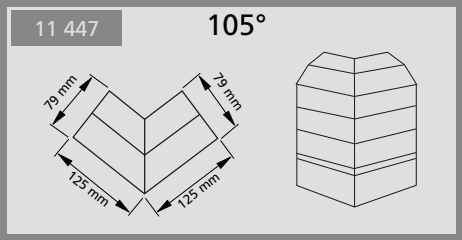

Available from 09/2016
RRP 43.90 EUR

200 x 152 x 225 mm

41 641 H0
Dumper with compressor trailer

The type Waran 1501 is a front tipper. True to reality tyres and the tiltable trough deserve a particular mention. Vehicles of this kind are largely employed in the building sector. The compressor trailer HV 1-90/125 reproduces its original true to reality.
Dumper 32 x 20 x 23 mm
Compressor trailer 32 x 17 x 16 mm

Available from 09/2016
RRP 23.90 EUR

41 642 H0
Set of trailers

They give your model making or model railway scenery a more realistic touch. The compressor has also true to reality tyres, but others than in No. 41 641.
2 trailers 45 x 15 x 12 mm each
1 compressor trailer 32 x 17 x 16 mm

Available from 09/2016
RRP 19.90 EUR

153 x 145 x 103 mm

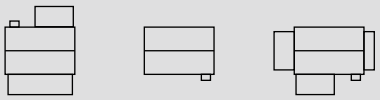

153 x 105 x 103 mm

186 x 105 x 103 mm

Auhagen

43 704 TT
Light railway loading ramp

Facilities of this type were used for loading bulk goods from the light railway carts into low open standard or narrow gauge wagons. Trucks were also loaded here. The movable chutes make it possible to display interesting loading scenes.
The railing is made of stable cardboard in laser cut technology. Please follow our tip written in catalogue or at www.auhagen.de. The track on the loading ramp is integrated, and an additional 7 curved tracks 30°, R = 42 mm, as well as 8 straight tracks 42 mm are enclosed. The general signage, too. When using track with built-in trackbed, compensate for the extra height with the base.
Authentic historical model
Available from 09/2016
RRP 24.90 EUR

350 x 20 x 46 mm

43 658 TT
Brick walls with optional decoration red

It's possible to build your own brick structures. Exactly-sized cross units for infinite walls. With 3 different interlocking friezes or decorative panels.
2 pieces
Available from 09/2016
RRP 9.90 EUR

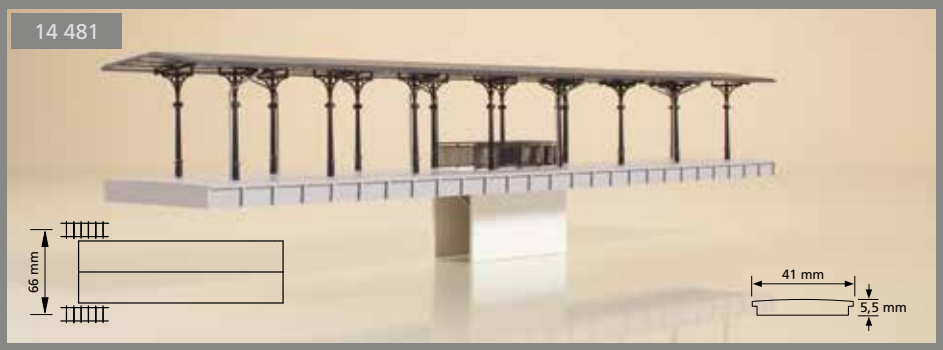

Each 210 x 65 mm

14 481 N
Platform

The replicas of the cast-iron columns appear to be very delicate, and even the true to reality inclination for discharging the surface water has not been forgotten. It is not absolutely necessary to fit in the staircase leading to the pedestrian underpass.
The railing is made of stable cardboard in laser cut technology.
Please follow our tip written in catalogue or at www.auhagen.de
In order to extend the platform you can link up several pieces of this article or use No. 44 641 without roof.
When using track with built-in trackbed, compensate for the extra height with the base.
Available from 09/2016
RRP 19.90 EUR

250 x 41 x 36 mm

44 641 N
Platform without roof

Suitable for extending the platform No. 14 481. With true to reality inclination for discharging the surface water.
When using track with built-in trackbed, compensate for the extra height with the base.
