Landscape mats
Ballast mat

Durable backing paper with 2.5 mm long fibres or scatter material.
Easy to cut with scissors or a knife. As an adhesive, we recommend No. 53 521 White glue. Crumple the mat to create an uneven surface. The material can also be shaped around existing mountains, slopes etc. In areas where you wish to create a lake or road, the fibres / scatter material can be dampened briefly and removed with a scraper.

Grass fibres

This range of scatter grass in various shades and lengths enables you to create very realistic landscapes. We recommend using a standard flocking machine to apply the fibres. The electrostatic charge will stand the fibres upright.
As well as creating custom terrains, you can also use the grass fibres to line the transitions between the landscape mats.
