- Range-specific original sound with the latest sound technology
- Optimal motor and load control for perfect running characteristics
- Compatible with all common digital systems

SOMETHING TO LOOK FORWARD TO! BRAWA ANNOUNCES A V60 DIESEL LOCOMOTIVE FOR 2019

Manoeuvring locomotive and workhorse for all tasks
The great demand for manoeuvring locomotives combined with the commencing structural changes led the German Federal Railway to develop the V60 range. Over the next eight years, the first prototype from in 1955 was followed by 941 more locomotives. Their reliability and robustness helped the last newly developed rod diesel locomotive of Deutsche Bahn to achieve a real cult status and made them indispensable at many railway stations or in the field of freight services, even to this present day.

By manufacturing the V60 range at a scale of 1:87, BRAWA has closed a further gap in the diesel locomotive range. The models will be available for order via specialist stores from September 15 2018. Before these models arrive in store, take advantage of your opportunity to vote for your preferred epoch, colouring and railway company. We look forward to receiving your feedback.

Delivery Date: 2nd Quarter 2019

PREMIERE FOR 9 BRAND-NEW MODELS!

Welcome to the BRAWA News Express 04/2018. Holding a new locomotive or a new wagon in your hands and putting it on your own tracks is ranking among the most exciting moments of a modelrailway fan. In order to inform you even faster on novelties and to shorten the waiting time, the News Express will be published up to three times a year. It will introduce models that you won't find in the New Items brochure and these models will be available at short notice.

This years first issue presents new models in gauge H0. Whatever locomotives and wagons you will discover on the next pages – they all have one thing in common: they fascinate with conformity to the original in appearance and technology, with a precise scale and great driving characteristics. We hope you enjoy discovering the many details! More information can be found at www.brawa.de.
