NORWEGIAN REGIONAL TRAIN type **BM73**

Ny forbedret serie med LED interiør lys og forbedret elektronikk.

New improved series with interior light and new electronic.

H0
1:87

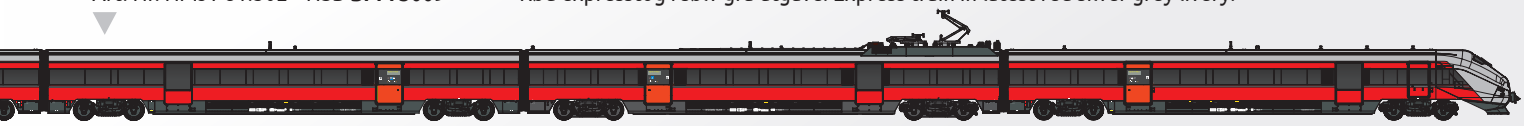

22 NSB BM73 togsett med krenging for økte hastigheter i kurver ble bygget av ADtranz på Strømmen fra 1999 to 2001, 6 sett ble bygget som IC tog og satt inn på strekningen Oslo-Halden-Gøteborg, Største hastighet 210 km/t. 16 BM73 er i bruk som regionaltog på strekningene Oslo, Bergen, Trondheim og Stavanger. Ved oppsplittingen av togtrafikken i Norge fikk ble settene tildelt de nye selskapene VY, GoAhead Nordic og SJ Nord og foliert i nye fargesetninger. NMJ lager modeller i den nye fargsettingen i meget begrenset opplag.

22 tilting NSB BM73 were built by ADtranz at Strømmen in the periode 1999-2001. 6 is in use in Inter City trains from Oslo to Halden and Gothenburg in Sweden.16 sett are in use for the Regional trains from Oslo to Bergen, Stavanger and Trondheim. Maximums speed 210 km/h. By the split up of the train traffic the Vy, SJ Nord and GoAhead Nordic, the BM73 was given a new design. NMJ makes some models of these in a very limited production.

Foto: unknown, Järnvägsmuseet

After the Yd/Y motor coaches was taken out of service many Y/Yd motorcoaches were rebuilt to MTR Motortralle of different type. One the most used was this Multipurpose type MTR 56s with loading place for tooling sand and cement. This maintenance vehicles had seating capacity for 6 men, made it very suitable for many kinds of work/maintaince, for cleaning of snow and for track maintenance etc.

NSB **C3**
BF3 19903

This serie is a series Ex DRG Ci28 coaches which remained in Norway after 1945. First used passenger coaches in local trains partly in Germany colours. Later repainted in the redbrown NSB colours. From 1956 to 1960 rebuilt to Conductors coaches BF3 and BFV1 for freight trains. One compartment keept with seats also for passenger possibiliites in freight trains. Superdetailed model with sprung axel boxes and complete detailed interior and undercarriage. Interior and platform LED lights. Remained in service until 1998-2000 when NSB stopped serving stations on the lines.
